

AL215-B

Dual 15" Lime Array Subwoofer

Features

- More loudspeakers can be connected vertically to form a line array loudspeaker system
- High power capacity
- Finland birch cabinet construction
- The drives are all designed and produced in Italy

General Description

Aimed specifically at medium sized tours and fixed installation, AL215-B line array systems have been created to truly deliver the best possible audio quality, fulfilling the exacting needs of today's global markets and surpass the expectations of both user and listener.

The AL215-B line array system consists of two 15" neodymium low-frequency drivers, and all drivers are made in Italy. The AL215-B utilize an optimally designed Finland birch constructed enclosure.

The AL215-B line array systems are perfectly suited for theatres, live sound performance venues, Clubs, Houses of Worship, Corporate events and Touring. The integrated rigging system allows quick and easy flying or ground stacking. Arrays may be created either straight or curved at various angles to obtain the desired vertical coverage.

For perfect sound presentation, AL215-B can be combined with line array full-range loudspeakers AL208-B or AL112-B to form a complete sound system.

Specifications	
Components	2x15 inch 88mm voice coil neodymium LF driver
Frequency Response	45Hz-1.2KHz (± 3 dB)
Coverage	Omnidirectional
Recommended Amplifier	2800W
Nominal Impedance	4 Ω
Sensitivity (1W/1M)	105dB
Maximum SPL (1M)	138dB
Connectors	Neutrik NL-4 (One set front and back)
Installation Manner	Flying or ground stacking
Dimension(H*W*D)	456*926*750mm
Weight	58Kg
Optional Fly Frame	LFF215
